## 2024\_28\_III\_OOPS Using Java Lab

### 2028\_REC\_OOPS using Java\_Week 12\_Q3

Attempt : 1  
Total Mark : 10  
Marks Obtained : 10

#### Section 1 : Coding

##### 1. Problem Statement

In the mystical realm of programming, there exists a magical incantation to reveal hidden words.

Elara, the skilled enchantress, wishes to summon a word using her spell and then reverse its characters to uncover its enchanted reflection.

Write a program that uses the predefined functional interface `Supplier<String>` and a lambda expression to:

Supply (generate) a string, and

Display its reversed form.

**Input Format**

No input is required from the user.

The string must be supplied internally using a Supplier<String>.

**Output Format**

Print the reversed version of the supplied string.

Refer to the sample output for formatting specifications.

**Sample Test Case**

Input: Wizard!!

Output: !!draziW

**Answer**

```
import java.util.*;
import java.util.function.*;

public class Main {
    public static void main(String args[]) {
        Scanner sc = new Scanner(System.in);
        Supplier<String> wordSupplier = () -> sc.nextLine();

        String word = wordSupplier.get();
        String reversed = new StringBuilder(word).reverse().toString();
        System.out.println(reversed);
    }
}
```

**Status :** Correct

**Marks :** 10/10
