Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

In a user registration system, there is a requirement to implement a username validation module. Users attempting to register must adhere to specific criteria for their usernames to be considered valid.

Your task is to develop a program that takes user input for a desired username and validates it according to the following rules:

The username must not contain any spaces. The username must be at least 5 characters long.

Implement a custom exception, `InvalidUsernameException`, to handle cases where the entered username does not meet the specified criteria.

Input Format

The input consists of a string S, representing the desired username.

Output Format

If the username is valid, print "Username is valid: [S]".

If the username is invalid:

1. If the username is short, print "Invalid Username: Username must be at least 5 characters long"
2. If the username contains spaces, print "Invalid Username: Username cannot contain spaces"

Refer to the sample output for formatting specifications.

Sample Test Case

Input: John

Output: Invalid Username: Username must be at least 5 characters long

Answer

```
// You are using Java
import java.util.Scanner;
class InvalidUsernameException extends Exception{
    InvalidUsernameException(String e){
        super(e);
    }
}
class main{
    public static void main(String[] args){
        Scanner sc = new Scanner(System.in);
        try{
            String d = sc.nextLine();
            if(d.length()<5)
                throw new InvalidUsernameException("Invalid Username: Username
must be at least 5 characters long");
            for(int i=0;i<d.length();i++){
                if(d.charAt(i)==' ')
                    throw new InvalidUsernameException("Invalid Username: Username
cannot contain spaces");
            }
        }
    }
}
```

```
        System.out.println("Username is valid: "+d);
    }
    catch(Exception e){
        System.out.println(e.getMessage());
    }
}
}
```

Status : Correct

Marks : 10/10
